**Toronto Metropolitan
University**
Business & Entrepreneurship
2020 – 2022

SOFT SKILLS

Collaboration | Problem-
solving | Time Management |
Leadership

INTERESTS

Mountain biking, building
computers, photography,
reading

PROJECTS

World Wander

React | Express | Redux | Node JS | Mongo | RTK Query | Tailwind
- A website that allows users to share their travels on other social media and within the World Wander community.
- Secured using custom JWT-based authentication. Hashing and salting of password using RSA elliptic curve cryptography and SHA-256.
- Handles all client-side data fetching and caching using RTK query along with Redux global state management.
- Client was built using the React framework, with the MapBox GLJS client-side rendered globe API.

Keeblnv

React | Node JS | Puppeteer | Ant Design | Express
- A website to search the inventory and prices of keyboard parts from popular Canadian keyboard vendors.
- Server-side scraping is executed in a Node JS environment, which is deployed and hosted using Firebase Functions.
- Uses Puppeteer's instance of a headless Chromium browser for scraping along with Express for server-side API endpoints.
- Client built with React and Ant Design component library.

EXPERIENCE

Lead Installer / Operations Manager

Thunder Graphics Inc. | Toronto, ON | Sep 2019 – Feb 2022
- Managed the successful implementation of a cloud-based work order and accounting system resulting in a significant increase in workflow efficiency.
- Successfully managed and collaborated with cross-functional teams to deliver projects on time and within budget.
- Applied lean manufacturing principles to optimize the production process.

Manager

Global Pet Foods | Markham, ON | Jun 2018 – Feb 2021
- Lead a team of up to 13 members to meet challenging deadlines and exceed customer expectations.
- Developed and implemented comprehensive short and long-term goals and tasks, effectively allocating resources to optimize team performance and meet organizational objectives.
